September 2018

## Sprint™ Family

Sprint™- 200  
Sprint™- 150

The Sprint family is designed to address a broad range of legend applications. Offering superior quality at high-throughput, the Sprint models can print on a wide range of panel thicknesses.

- Superior quality at high speed
- Print the smallest features: lines and spaces down 4 mil and characters down to 0.5mm height
- Excellent and uniform area fill
- Multiple serialization and bar code options
- Consistent Printing with DotStream Pro Technology

## DiPaMat Etch Resist Er01

DiPaMat Etch Resist ink offers :

- Blue UV curable ink generating high contrast image
- Fast UV curing with doped, non-doped Hg bulb and other UV lamp types
- Fast UV curing with LED
- Excellent jetting performance and robustness on industrial print heads
- Excellent image quality
- Reliable reproduction of 75-100 µm sharp lines and spacings
- Good adhesion properties on copper (function of copper cleaning), brass, stainless steel etc.
- Excellent shelf life
- Non toxic, ROHS compliant, halogen free, no CMR's, no volatile organic components
- Etch resistant in industrial acid etching solutions
- Strippable in industrial alkaline stripping solutions
